

ADULT SUBSTANCE ABUSE EVALUATION REPORT

TO: (Probation Officer or Court of Jurisdiction)

INDIVIDUAL INTERVIEWED: (Client's full name and date of birth)

DATE:

CLASSIFICATION: ___ CHEMICALLY NON-DEPENDENT
 ___ SUBSTANCE ABUSER
 ___ CHEMICALLY DEPENDENT

RECOMMENDATION: ___ ADIS
 ___ LEVEL II ADIS
 ___ TREATMENT

Report format is changed from free form narrative to specific sections. The sections and content thereof are as follows:

Background Information

Should include background information such as marital status, education, vocational history, and demeanor.

Circumstances of Instant Offense

Discussion of events leading to arrest including setting, time frame, type and quantity of substance used, accident or injuries, BAC, etc.

Past Legal History

Specific information regarding client's self-reported legal history.

Substance Use History

Discussion of client's substance use history. Should include family history of chemical dependency, age of first use, types of substances used in past, recent use history including type and quantity and frequency, life problems caused by substance use, chemical dependency symptoms, substance abuse and mental health treatment history, and date of last use.

Summary and Conclusions

Summarize important aspects of the case and give supporting facts to justify which classification was selected. Should include SASSI test results/scores and why it does or does not support the conclusions, and amenability to treatment. SASSI and any other tests used must be in clients file.

Recommendations

Must recommend ADIS, Level II or Treatment. If treatment is recommended, specify treatment modality and parameters. Should also include whether diversion/probation monitoring should be supervised, frequency of contact with court monitor, abstinence from alcohol and drugs, urinalysis testing, attendance at self help meetings, and continuing care participation.
